

# Using the Enactus logo

The Enactus logo should only be reproduced using original artwork, which can be accessed at: [enactus.org/logofile.zip](http://enactus.org/logofile.zip). Please reference the following guidelines when reproducing the logo.

## Primary Logo

### Full Color

This is the preferred logo treatment and should be used whenever possible

**Enactus Gold**  
C:0 M:25 Y:95 K:0  
R:255 G:194 B:34  
HEX:FFC222  
Pantone: 7408C

**Enactus Gray**  
C:35 M:28 Y:26 K:63  
R:81 G:83 B:86  
HEX:515356  
Pantone: 425C

### Reversed

In special graphics applications the logo can be used with the full color icon and text reversed out against the Enactus gray or one of the other colors from the official color pallet.

**Shadow Color**  
C:0 M:37 Y:100 K:23  
R:200 G:138 B:18  
HEX:C88A12  
Pantone: 139C

---

## Secondary Logo

This logo should only be used in very special situations, such as merchandise and special printed materials, when a single color print is the only option. Although most basic working documents will be printed in black and white, e.g., Word and Excel, you should still be using the primary full logo for these applications.

# Placement & Sizing

### Negative space

Always maintain negative space around the Enactus logo. Measure negative space by the size of the “n” from the Enactus logo. Never allow typography or other graphic elements to invade the logo.

### Minimum size

To preserve the integrity and impact of the Enactus logo, please do not reproduce smaller than 3/4” (1.905 cm).

# How to create a university lockup with the Enactus logo

We appreciate your efforts to build the Enactus brand. You are part of the community responsible for bringing this brand to life. The Enactus name and logo are trademarked; as a member of the organization you are authorized to use the logo in a manner consistent with our guidelines. By doing so, you're helping to build a global brand that benefits us all. You have three options to bring Enactus to life in your community.

## Option 1: Enactus Logo Only

The Enactus logo alone makes a very powerful statement. It provides the cleanest, most effective means of communicating that you are a part of the global community of Enactus.

Use this option for your tshirts or materials to promote Enactus in your community.

## Option 2: Enactus Logo in Conjunction with University Logo

Leverage the power of these two organizations together by using both logos—either separated on the piece or in close proximity to one another. Be certain to follow the University branding guidelines as well.

Use this option when you're going to competition or promoting a specific initiative that your team is taking on or on your team's social media pages.

## Option 3: Enactus University Lockup

As a more integrated alternative to Option 2, you can create your own Enactus University Lockup.

Font: Source Sans Pro. This is an open-source font, which means it's free to you. Download it here:  
<http://www.fontsquirrel.com/fonts/source-sans-pro>

You can download the Enactus university template Illustrator EPS file, open in Adobe Illustrator, and simply update the University name text. Once completed, convert text to outlines (type > convert to outlines), and save as EPS.

Alternatively, if you need to create the logo in another vector editor, start with the logo 5.75 inches (14.605 cm) wide. The font will be 36pt, Source Sans Regular. The leading, or linespacing, will be 43.2 pt. The kerning, or letterspacing, will be -25pt. The university name should begin with the same amount of padding as that between the top of the "enactus" wordmark and the bottom of the mark above. If the school name is longer than one line, it should wrap no farther than the length of the extension of the yellow mark on the left side.
